1. List Tag Tasks (`<ul>`, `<ol>`, `<li>`)

1. Create an **unordered list** of your favorite 5 foods.
2. Create an **ordered list** showing your daily routine.
3. Create a **nested list** (list inside another list) for:
    - Fruits
    - Vegetables
4. Create a list with **Roman numbers**.
5. Create a list with **alphabetical order (A, B, C)**.

---

2. Table Tag Tasks (`<table>`)

1. Create a table with **3 rows and 3 columns**.
2. Create a **student marks table** with:
    - Name
    - Subject
    - Marks
3. Add **table borders**.
4. Use **`colspan` and `rowspan`** in a table.
5. Create a **timetable (school schedule)**.

---

3. Image Tag Tasks (`<img>`)

1. Display an image from your local folder.
2. Display an image from the internet.
3. Add **alt text** to the image.
4. Set image **width and height**.
5. Make an image act as a **link**.

---

4. Audio Tag Tasks (`<audio>`)

1. Add an audio file with **controls**.
2. Make audio **autoplay**.
3. Add **loop** to audio.
4. Add multiple audio formats using `<source>`.

---

5. Video Tag Tasks (`<video>`)

1. Add a video with **controls**.
2. Set video **width and height**.
3. Add **autoplay and loop**.
4. Add multiple video formats using `<source>`.

---

6. Formatting Tags Tasks

1. Write a paragraph using:
   - `<b>` bold
   - `<i>` italic
   - `<u>` underline
2. Use:
   - `<strong>`
   - `<em>`
3. Display:
   - **Superscript** (e.g., x^2)
   - **Subscript** (e.g., H_2O)
4. Highlight text using `<mark>`.
5. Show deleted and inserted text using:
   - `<del>`
   - `<ins>`

---

7. Combined Task (Mini Project)

 Create a simple **HTML webpage** that includes:

- A heading
- A paragraph with formatting tags
- A list of items
- A table of data
- An image
- An audio file
- A video
